References

We work together with German security authorities, leasing companies and medium-sized companies as well as international groups. We take into account that many of our clients appreciate confidentiality. Still, we would like to name some of our clients on this site. Several companies have even made a short statement about their cooperation with us. You can receive further information or contacts to our clients after signing a statement of confidentiality.

Here you find:

- **Personal recommendations**

Some of our clients were so satisfied with us that we are allowed to publish their recommendations on the internet.

- **Reference list**

Here is a list of further satisfied clients who agreed to a publication on our website.

personal recommendations

Knüppel Verpackung

"We have purchased SAP licenses on good terms from Susensoftware. The procedure was simple and the service convincingly good. I can only recommend it. We will purchase pre-owned software also in the future."

CABB

"Our company is an affiliate of the chemical company group Clariant. With the help of Susensoftware, we saved 60% of the procurement costs for SAP ERP software", Theo Geeroms.

GESIS

The GESIS company for information systems GmbH is an IT service organization of the Salzgitter AG.

The Salzgitter AG is one of the leading steel technology groups in Europe.

"We have gained good experiences with pre-owned software." - Alexander Klages

Imagelinx

Imagelinx used and implemented the SAP licenses within the scope of a project concerning the implementation of SAP into a planning and asset management system. After the project was finished, Imagelinx no longer needed the licenses, which were already written off against tax.

The software trader Axel Susen was able to gain the interest of a liquor manufacturer, who already had SAP licenses and wanted to increase the number.

"Since the licenses had already been depreciated, this was an unscheduled and therefore very welcome profit", assured Martin Wassmann, IT director at Imagelinx.

Klosterfrau

It was a happy day in the IT-department of the Cologne Kölner pharmaceutical company Klosterfrau. The offered goods were old – but still, the company could really make money with them.

"We could successfully sell office licenses", says Robert Wagner, IT-expert at Klosterfrau.

Kompakt Kur

Heinz Gustav Wagener, CEO: „We were in need of new and favorable software in short notice. SUSENSOFTWARE provided us immediately with exactly the software we needed. We thank SUSENSOFTWARE for the faithful co-operation and the good result.“

Labor Leverkusen

Dr. med. Rolf Norbert Schöngen, laboratory specialist: „In the area of health and precaution, we are aware of many cost saving models. The pressure to save costs also affects software products. This is why we support Mr. Susen and benefit from his business idea. We are looking forward to a further co-operation.“

Stadtwerke Kempem GmbH

Herwig Eichelberger, CEO: „Although the subject software doesn't play the major role, we could save substantial expenses.“

Archimica

"Reborn" on 1 July 2006, Archimica began its new life as the world's leading global fine chemicals business focused solely on the commercialization of pharmaceuticals. Our work is made up of developing commercialization and manufacturing solutions for the pharmaceutical innovator, as well as the development and manufacture of generic drugs. We buy SAP Licences.

West LBS

"After necessary restructurings, we could purchase a larger amount of office licenses from Susensoftware. The handling was easy and unproblematic." - Alfred Lemkeck

CSI Leasing

Susensoftware managed to find a purchaser in Germany for old SAP R/3 software licenses, although the maintenance had already expired. The purchaser uses the programs throughout the company.

"We were afraid that we had to depreciate the former valuable licenses as a loss", says the seller, Carl-Heinz Beddies at CSI Leasing in Bad Velber. "Then Axel Susen found a buyer. It was an unexpected windfall for us."

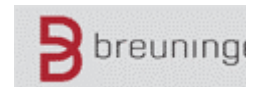

B & S GmbH

BTS Kombiwaggon
